## Vulcan 1000 in private house

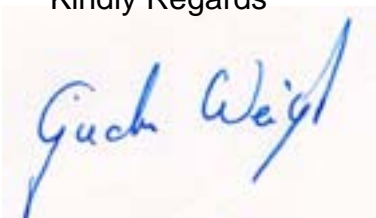

06. September 2010

Dear CWT Team,

Since 4 month I have installed your water treatment device Vulcan 1000. With curiosity I kept a look on the water and I was amazed to see the positive difference after few weeks. I have noticed that my hair feels softer after washing it without using any additional hair cosmetics. Also the shower screen and the bathroom fittings were easier to clean with very less cleaning agents.

All in all I am very satisfied with this device and will recommend this product.

Kindly Regards

A handwritten signature in blue ink that reads "Gudrun Weigt".
